Célia ALVES RODRIGUES

Child in: PTS2

In the Board since 2023

Motivation and Experience:

- **This work matters. I am here for the children – and I still have the energy, motivation and the right reasons to do it.**
- Because parents and students deserve reliability and accountability:
 - Active throughout full 3 mandates – attended all board meetings, member of 8 WGs
 - Vice-President – Pedagogical Affairs (2025)
 - I stay when things are difficult and take responsibility seriously
 - Active networking with European Commission unions and staff representatives.

Projects for 2026:

- **Consult, inform and defend parents' interests.**
- **Continue the work already started, in particular:**
 - Follow-up of the Evere project and preparation of the “super-secondary” school in Woluwe and fight overcrowding on both sites
 - Promote well-being and inclusion at school
 - Continue active contribution to working groups, in particular pedagogical ones
 - Support a parents' association that works for the common good of children and the community - not simply as a “business”

Anyone can come back when it's easy.

What matters is who stayed when the work was hard.

Soraya LEMAIRE

Child in: P2

New candidate

Motivation: The APEEE services we all depend on directly impact our children's (and ours) well-being every day. The trust of parents implies responsibility and commitment: transparency, continuous quality enhancement, and efficient, cost-conscious management.

Projects: My professional background (biologist, having also worked in the security sector) naturally leads me to take an interest in health and safety issues for both pupils and employees, particularly in the context of the move from Woluwe to Evere.

The CEPM is also a crucial topic. The multicultural environment in which our children grow up is a tremendous opportunity that can offer them the best chances for the future, once the foundations have been robustly laid. A permanent dialogue is therefore necessary to ensure that the objectives are met.
